MILLIONS Bear Testimony to their Wonderful Curative Effects.

They are not a vile Fancy Drink, Made of Poor Rum, Whiskey, Proof Spirits and Refuse Liquors doctored, spiced and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the Native Roots and Herbs of California, free from all Alcoholic Stimulants. They are the GREAT BLOOD PURIFIER and A LIFE GIVING PRINCIPLE, a perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition. No person can take these Bitters according to directions and remain long unwell, provided their bones are not destroyed by mineral poison or other means, and the vital organs wasted beyond the point of repair.

They are a Gentle Purgative as well as a Tonic, possessing, also, the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver, and all the Visceral Organs

FOR FEMALE COMPLAINTS, in young or old, married or single, at the dawn of womanhood or at the turn of life, these Tonic Bitters have no equal.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

DYSPEPSIA OR INDIGESTION, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the regions of the Kidneys, and a hundred other painful symptoms are the offsprings of Dyspepsia.

They invigorate the Stomach and stimulate the torpid Liver and Bowels, which render them of unequalled efficacy in cleansing the blood of all impurities, and imparting new life and vigor to the whole system.

FOR SKIN DISEASES, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring-Worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin, of whatever name or nature, are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; and your feelings will tell you when. Keep the blood pure and the health of the system will follow.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist: There is scarcely an individual upon the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No System of Medicine, no vermifuges, no anthelmintics will free the system from worms like these Bitters.

How a Married Man Sews on a Button.

[Danbury News Lunatic.]

It is bad enough to see a bachelor sew on a button, but he is the embodiment of grace alongside of a married man. Necessity has compelled experience in the case of the former, but the latter has depended upon some one else for this service, and, fortunately for the sake of society, it is rarely he is obliged to resort to the needle himself. Sometimes the patient wife scalds her right hand, or runs a sliver under the nail of the index finger of that hand, and it is then the man clutches the needle around the neck, and, forgetting to tie a knot in the thread, commences to put on the button. It is always in the morning, and from five to twenty minutes after this he is expected to be down street. He lays the button exactly on the site of its predecessor, and pushes the needle through one eye, and carefully draws the thread after, leaving about three inches of it sticking up for lee way. He said to himself: "Well, if women don't have the easiest time I ever see." Then he comes back the other way and gets the needle through the cloth easy enough, and lays himself out to find the eye, but in spite of a great deal of patient jabbing the needle point persists in bucking against the solid parts of the button, and finally, when he loses patience, his fingers catch the thread, and that three inches he has left to hold the button slips through the eye in a twinkling and the button rolls leisurely across the floor. He picks it up without a single remark, out of respect for his children, and makes another attempt to fasten it. This time when coming back with the needle he keeps both the thread and button from slipping by covering them with his thumb, and it is out of regard for that part of him that he feels around for the eye in a very careful and judicious manner, but eventually losing his philosophy as the search becomes more and more hopeless, he falls to jabbing about in a loose and savage manner, and it is just then the needle finds the opening, and comes up through the button and part way through his thumb with a celerity that no human ingenuity can guard against. Then he lays down the things with a few familiar quotations, and presses the injured thumb between his knees, and then holds it under the other arm, and finally jams it into his mouth, and all the while he prances and calls upon heaven and earth to witness that there has never been anything like it since the world was created, and howls, and whistles, and moans, and sobs. After a while he calms down, and puts on his pants and fastens them together with a stick, and goes to his business a changed man.

FUN AT HOME.

Don't be afraid of a little fun at home, good people. Don't shut up your houses lest the sun should fade your carpets, and your hearts lest a happy laugh should shake down some of the musty cobwebs there. If you want to ruin your sons, let them think that all mirth and social enjoyment must be left on the threshold when they come home at night. When once a home is regarded as only a place to eat, drink and sleep in, the work is begun that ends in gambling-houses and degradation.

Young people must have fun and relaxation somewhere. If they do not find it at their own hearthstones, it will be sought in other, and perhaps less profitable, places. Therefore let the fire burn brightly at night, and make the home ever delightful with all those little arts that parents so perfectly understand. Don't repress the buoyant spirits of your children; half an hour of merriment round the lamp and firelight of home blots out the remembrance of many a care and annoyance during the day, and the best safeguard they can take with them into the world is the unseen influence of a bright little domestic sanctum.

BUTLER'S THREE CENTS.—Since his famous response to one of his constituents with regard to the salary steal, Ben Butler has been in constant receipt of letters from others of his constituents, requesting him to forward to them the three cents which he admits to be due to the tax-payers on this account. Butler replies promptly in each instance, but instead of franking the letters places a postage stamp on them. The letters are worded thus:

April 1, 1873.

DEAR SIR: You will find your three cents on the outside of this letter. Yours truly, B. F. BUTLER.

While there are about 10,000 men who think they know all about the perpetual motion principle, it is safe to say that there is not a solitary soul in this universe who can explain why a railroad engineer blows his whistle as he shoots by a passenger train. People who have popped up from their seats and clutched their scalps on these occasions are somewhat interested in an explanation —[Danbury News.

DECATUR, ILLINOIS:

Friday Evening, April 11.

THE forthcoming report of the United States Commissioner of Mining Statistics will credit Montana with having yielded gold and silver to the coin value of nearly $7,000,000 in 1872. This is about a million dollars short of the returns of the previous year.

THE San Francisco *Bulletin* gives the average Caucasian immigration to that State as 200 per week, and some of them are *en route* for Oregon. There is, it seems, an immense body of good agricultural land in the State which is still unoccupied, and that may be had at reasonable rates. The great argument used by the *Bulletin* is:—We do not burn corn or wheat in California. Unlike Illinois and Iowa, the farmer is not poor in the midst of his abundance." It seems that the more grain the West produces, the worse off the farmers are. It costs more to transport grain than to raise it, three to one. Real thrift in agriculture is out of the question so long as such a state of things exists.

THE Pope is reported to be very feeble. Should he live until May, he will be 81 years of age, according to ordinary statements. It has been alleged, however, that 1790, instead of 1792, was the real date of his birth. If this be true, he is far advanced in his 83d year. He has reigned longer than any Pope, not only having seen, but surpassed, the years of Peter, and has experienced troubles enough to have shattered any but the strongest constitution. About a year ago he lost a brother who was well up in the nineties, but the nonagenarian never had half as many vexations as the Pope.

AT a meeting of spiritualists in Buffalo, the other day, Miss Nettie Maynard, of White Plains, N. Y., arose, and, with great modesty, considering the importance of the matter she undertook, told the audience that during the war President Lincoln had many interviews with her, and took advantage of the information she furnished through the spirits. The most important movements of the war were made through her agency. Who would have thought it? Why didn't she advise the Credit Mobilier people?

THE English mortality records for 1872 contain some very curious statements of the causes of death which assist to deplete the list of Her Majesty's subjects, and these causes are not so strictly confined to England that they may not convey a caution to others. ... a man ... one boy and a man, bees stung one man to death; and a cat, a ferret and an adder each killed their man by a bite. One charming child swallowed a screw, another a shell, and another a cherry stone; each was soon subsequently buried, as also was the fate of one ... thrusting it into its ear. A belle of fashion perished from swallowing a pin which she was trying to hold in her mouth; fish bones killed three people who ate without their glasses, and swallowing coins closed the careers of two others. The wrong kind of food is attributed with the death of five persons, and the wrong kind of medicine killed eight, which shows that food is twice as safe as medicine, by the way. These are some of the incidents of the record. Besides these, 144 children were smothered by bed-clothes, a fact worth noticing, and 930 persons were killed by the railroads. Suicide carried off about 70 in every 1,000,000 of the population, and hanging is rather the pet device. Premeditated suicides occur generally at night; hasty omissions to live are made by daylight. These are some of the current English accidents of 1872. It is open to conjecture how many of them were due to carelessness.

GOVERNOR SMITH, of Georgia, has issued invitations to the Governors of twenty-two Western and Southern States, and the Mayors of 153 cities, together with the members of the Committee on Water Lines, to take part in the convention to be held in Atlanta on the 20th of May, to take into consideration the subject of water communication with the ocean through the State of Georgia, by means of the proposed Atlantic and Great Western Canal.

U. S. MARSHAL HARLOW yesterday attached the Steamer City of Mexico, at New York, of the Alexandria Line, under penalty of $200 due the United States for violation of the shipping laws.

THE presidents of the National banks of New York City gave a banquet last night to ex-Senator Cattell, who is about to go to Europe to assist in refunding our government bonds.

ST. LOUIS, April 10.—Charles Sanguinet, probably the oldest inhabitant of this section of the country, formerly known as Upper Louisiana, having been born in this city in 1781, died to-day. Mr Sanguinet was intimately connected with the commercial and general growth of St. Louis from the time it was a mere fur trading outpost until a few years ago when he retired from business.

FROM BLUE MOUND.

BLUE MOUND, April 9, 1873.

EDITORS REPUBLICAN:—Being an occasional reader of your valuable paper I thought that I might interest your readers by giving them a good joke that took place here on the eve of our April election. The facts in the case are about as follows: One Mr. Muirheid (a very worthy man) had been elected a town officer at some past election, and being of a lofty turn of mind, and, withal, a man very desirous of some honor in an office of trust, had meditated offering himself as a candidate for election to the *lucrative* office of Commissioner. Coming from the city a few evenings previous to the election, with his wagon loaded with flour, he called out his neighbor, Chas. Lowrie, and (*we suppose without a thought of meaning anything*) remarked that he was a candidate for Commissioner, and being so he solicited Charles' vote, telling him "to pick his sack of flour." Mr. Lowrie, being ready at any time for a joke, took the sack, and left Mr. Muirheid to drive home minus a sack of flour. Lowrie and family have devoured the flour, and what is worst Lowrie has voted for W. G. McDaniel as Commissioner.

The joke was too good to keep, and thus Mr. M. hears nothing but "flour," "flour" wherever he goes; his only reply being "tehe, tehe, hee, hee," in a forced laugh.

The above is vouched for.

A VOTER.

A Moderate Assertion.—A well to-do farmer living six miles from Decatur, a Deacon of the Church, of good standing, noted for his iron will and muscle, made the assertion that if he had all the corn he had shucked since he has been in this county, (which is 16 years), it would fill a crib 1 foot high and 9 feet wide from his house to Decatur. Some of our mathematical students by a little calculation will make this about 1,393,930 bushels—he has been here 16 years, so by counting out 832 Sundays, 160 town going Saturdays, would leave 4,850 working days, (making no allowance for bad weather)—he would have to shuck at the rate of 288 bushels per day. This beats any shocking story that ever come under our notice.

THE ENGLISH WHEAT DEMAND.

It has been ascertained that the actual consumption of wheat in the United Kingdom during the last six months was larger than was estimated, while the supply will be considerably less, making a difference of 16,000,000 bushels. The Liverpool *Courier* estimates the quantity of prospective supplies at 32,000,000 bushels, and adds that to all present appearances we are now worse off with reference to our probable supplies than we were six months ago.—The estimate then formed was carefully made on what appeared to be reliable data. It was smaller than some of the estimates put forth at the same time; unfortunately it threatens to be in itself too large. But that our wants may be met there is no doubt. They may be of necessity, somewhat curtailed, by higher prices, but higher prices will bring what is needed. The visible supply of wheat in America on March 25, as published in the *Globe* last week, was 7,413,579 bushels, against 9,273,110 bushels as compared with the same time in 1872. The prospects of good prices will place in the market every available bushel of grain.—*Boston Globe.*

FROM WASHINGTON.

WASHINGTON, April 10.—It is understood that the President will appoint Gen. Lafayette McLaws as United States Marshal for the District of Georgia. Gen. McLaws served with distinction in the Confederate service and is a prominent Democrat. He was Gen. Grant's classmate at West Point, and between the two there is said to have existed the closest intimacy and friendship, which continued throughout their subsequent life in the regular army, and also during the late conflict.

Mr. McLaws was recently a guest of the President, and was treated with great courtesy. His appointment has no political significance.

The President will leave here the latter part of next week for St. Louis, to be absent some time on private business. Previous to his departure he will make the balance of his appointments, some half-dozen in number, of internal revenue collectors, under the new law which goes into effect May 20.

The Chronicle has an editorial to-day which is understood as the President's statement of the causes which led to the resignation of Geo. Wm. Curtis. The article says that Geo. Wm. Curtis was placed at the head of the Civil Service Advisory Board, and he did much toward giving reform a fair start last winter. However, a difference of views was developed between him and the President, which proved irreconcilable. The President, if we are not misinformed, suggested to Mr. Curtis that his own experience in filling offices had suggested such a modification of the rules as would admit of the transfer of officials from one class of offices to another. This Mr. Curtis did not fancy. The President quietly waited until one of the cases occurred, and then, exercising his reserved authority, he made transfers, the propriety of which all who know the gentleman admit. Mr. Curtis, however, felt that like the British Cabinet Minister, it was his duty to resign when he could no longer confidently carry out the views of the chief magistrate.

ALBANY, April 10.—In the General Assembly to-night, a resolution was adopted to arrest and bring before the bar of the House, Wm. M. Tweed, Jay Gould and John B. Dutcher, for refusing to appear and testify before the Erie Investigating Committee.

FROM ILLINOIS.

SPRINGFIELD, April 10.—In the Senate this morning, House bills on a third reading were taken up for consideration and passed, as follows: No. 289, amending the act concerning Justices and Constables—yeas, 38; nays none. No. 10, providing for recording indictments—yeas, 41; nays, none. No. 143, amending the act concerning Recorders of Deeds in La Salle county—yeas, 36; nays, 1. No. 38, providing for filling vacancies in the office of Judges of Cook county—yeas, 38; nays, 1. No. 387, amending the act concerning limitations—ayes, 35; nays, none. No. 221, concerning homesteads and exemptions—ayes, 32; nays, 8. No. 253, authorizing cities to construct and maintain water-works—ayes, 37; nays, none. No. 445, concerning domestic animals running at large—ayes, 26; nays, 9. No. 272, appropriating $25,000 to build a soldiers' monument at Mound City—ayes, 34; nays, 3. No. 300, regarding the assessment and collection of taxes, as amended by the Senate—ayes, 34; nays, 7. Apprehension is felt that after all this bill will be defeated. Both houses have passed it with the emergency clause, but, the Senate having amended it, it is feared that the House will not concur by a two-thirds, or emergency vote.

Bills were introduced as follows: By Mr. Murphy, to amend the Revenue law so as to have assessments sworn to. By Mr. McGrath, for the construction of a ferry across the Illinois river.

House bill No. 379, relating to roads and bridges in counties under township organization, was passed—ayes, 39; nays, none.

HOUSE.

In the House this morning bills were passed as follows: To define monopolies in internal trade and commerce, and to prevent the same; to provide for the diminution of sentences of convicts for good conduct; to facilitate the settlement of accounts between corporations and the State charitable institutions; to provide for copying the laws and journals of future General Assemblies.

The bill to increase the jurisdiction of County Courts and to repeal the act of 1872, relating thereto, was discussed at great length and was lost.

The bill to repeal the act increasing the jurisdiction of County Courts was also lost.

The vote on both of these bills was re-considered and both were recommitted.

CHICAGO, April 10.—A meeting of the representatives of Illinois railroads was held at the Sherman House, to discuss the transportation question and see what action is best to be taken relative to the legislation proposed in the bill introduced in the Senate by Donahue.

After a protracted session, from which reporters were excluded, the meeting adjourned without coming to any agreement.

President Newell, of the Illinois Central, occupied the chair.

It was shown that during the past year the North and South lines had decreased in business about seventeen per cent., and it was proposed to make competing rates the same as local rates, and thus bring the business up.

This was objected to by Col. Smith, general manager of the I. B. & W. R. R., and representatives of other Eastern and Western lines. These latter lines reach the seaboard markets by shorter lines than the other, and are necessarily benefited by the present arrangement. Their refusal to come into the arrangement for an advance of through rates defeated the object of those who called the meeting.

CHICAGO, April 10.—To-morrow is the day fixed for the resumption of navigation on the entire length of the Illinois and Michigan Canal from Chicago to La Salle.

The New Sherman House opened this morning and already every room which is prepared is occupied. All the hotels are full.

At Osage, Iowa, an enthusiastic reformer has started a petition to the council to prohibit merchants from selling corsets to the ladies for the reason that their use destroys the health of the wearers, thereby increasing the doctor bills and depriving husbands and children of their society and help, besides being a serious drawback to the raising of infants. The project meets with considerable favor and will doubtless be seriously entertained by the city fathers when brought before them.

One of the largest and most successful sale of short-horned cattle, took place near Waukegan, Ill., yesterday. The entire herd, fifty-six in all, of W. B. Dodge, and thirty-six from the herd of Parks, being sold for an aggregate amount of over $45,000—the cows averaging $61 50, and the bulls $350 each. The stock was purchased by breeders from Illinois, Iowa, Kentucky, Ohio and Indiana.

Chief Justice Lawrance, of the Supreme Court of Illinois, has written a letter acceding to the request of nearly all the lawyers of his district, to become a candidate for re-election in June next.

FROM NEW YORK.

NEW YORK, April 10—The first yellow fever patients seen at the quarantine this season, arrived yesterday from Rio Janeiro. The authorities have taken every precaution to arrest the progress of the disease, and have no fear of a general epidemic.

In the postal car examination to-day, Mr. Hinckley argued in favor of the railroad companies being paid by measurement, instead of weight, for carrying mail matter, and against being compelled to use patent heating apparatus in the postal cars. N. E. Davis, assistant superintendent of the postal service, replied for the government, and read a statement showing that the middle and eastern states railroads were paid an advance of 20 per cent. since 1868, and in some instances on the western roads as high as 100 per cent., and even 150 per cent.

Mr. Davis said he considered the postal cars a necessity, because of the time saved in the delivery of mail matter, and the relief given to large post offices, which, otherwise would have to be provided with additional apartments for distributing and regulating the mails.

Mr. Hinckley believed the new postal bill would compel the railroad companies, which they regarded inadequate, and leave it optional with the companies to carry the mail or not.

LAWRENCE, Kansas, April 10.—The Journal learns that the Kiowas, Cheyenne and Arapahoe Indians are preparing for war, and that the government is reinforcing all the forts in Western Kansas and south of that section, and extra troops have been ordered to the front. Two companies of cavalry have already arrived and two more are on the road. There is every prospect of Indian troubles on the frontier this spring.

LEAVENWORTH, April 10.—The *Times'* Arkansas City correspondence mentions the return of the rescue party sent out to protect and warn surveyors on the Cimmeron. The party reached the spot where the four surveyors were murdered and found the bodies horribly mutilated. Demings' remains were brought back to Arkansas City for interment. The remains of the other victims were buried where they were slain. The rescue party encountered several bands of Cheyenne Indians, who made hostile demonstrations but did not venture on an attack.

LONDON, April 10.—Developments made in the Bank of England forgery case, which was before the Lord Mayor to-day, conclusively establishes the fact that the forgeries were committed by Austin Bidwell, now under arrest at Havana, and whose surrender has been ordered by the Spanish government. George McDonnell, who was held for extradition in New York, George Bidwell, whose arrest in Edinburg has already been announced, and Noyes, the alleged clerk of the parties, who was the first person taken into custody, are here. George Bidwell and Noyes were both before the court to-day, and after an examination were remanded to Newgate.

CITY DEPARTMENT.

.More rain.

...Mud reigns supreme.

..In order—April showers

...Easter next Sunday.

. To-day is Good Friday

..Easter eggs are in demand.

..The ice wagons are on the move.

...Our City Directory has been corrected.

...That new High School bell has a better tone than the old one.

..Remember the Panorama and Comedy at the Opera House to night.

. The Franco German War at the Opera House to-night

. The city's need—A system of sewerage.

...The city should macadamize one street from the square to the depot.

. Our city nimrods do not meet with the most flattering success.

...Many changes of residence have taken place during this and last week

...Dissolve ten cents worth of gumarable in a gill of vinegar, and you have twenty-five cents worth of mucilage.

...Our city is approaching a state of peace and prosperity. This assertion will be granted when we state that there was no police business yesterday.

.. It is currently reported that there is a man in this city who has carried an umbrella for 40 years. Where, oh where, is Barnum?

..The merry and well tuned voices of the frogs and tadpoles are a cheerful reminder that spring is here.

..In a few days the police will appear upon the streets adorned in all the elegance and beauty of kings—blue blouses and regulation caps.

...Some of the printers of Pekin have founded a new daily paper on the ruins of the *Register*, to be called the *Union.*

...Marion Davidson, formerly in Nelson & Roby's law office, is traveling for Strohm & Dempsey.

...The fine haired gate lifter doth make his nightly rounds. Some of our citizens have loaded their blunderbusses with grape and cannister, and woe be to the boy or man that attempts to ply this nefarious trade.

...The firemen were expecting to give a parade to-morrow evening, but the rain last night will prevent them from carrying their desires into execution.

...We are glad so see that the sidewalks have to some extent been improved. At the same time we would suggest that in repairing the walks that boards of the same thickness be used. as a difference of half an inch will frequently cause the innocent pedestrian to stump his toe, and give vent to his jus ly aroused feelings in sundry indeclinable and unnecessary adjectives.

...There is a cat in the first ward, whose elegant voice can, in pleasant weather, be distinctly heard a distance of three blocks The fortunate possessor has been offered $50 for the loan of the cat for one year, but the insignificant offer was indignantly refused. A neighbor intimates that the neighborhood would willingly part with the animal for four bull dogs or their equivalent—8½ cents

..Hon. Joseph G. Cannon, member of Congress from this district, came over last evening from the rural village in which he resides, to spend a day in the metropolis of his district. He did himself the honor of calling at the REPUBLICAN office soon after his arrival, and Mayor Forstmyer hearing of his being here, courteously tendered him the freedom of the city. He will return home this evening.

. Upon being asked to sing a few evenings since a young gentlemen of this city replied that he had an excellent voice for pumping an organ, and after hearing him sing a few stanzas from that much-to-be respected-on-account of age, "Hast thou no feeling," the entire company agreed with him in his first assertion.

...It has been suggested by some one that the long and tiresome nights of this spring can be profitably employed in fishing for felines with large-sized angling hooks baited with bologna sausage. Such an employment will no doubt prove highly lucrative to the undertakers, and would, we are certain, add greatly to the length of the lives of our citizens

...The Mattoon *Journal* says Jim Shoaff, of the Edgar County *Gazette*, recently notifies the hotel keepers of Terre Haute of his intention to visit that city, inviting any one who desired the honor of entertaining him gratuitously for 48 hours to "write to him, enclosing a stamp" In return, the generous Terre Hautentots proffered him the "hospitality of the city," tendering him the free use of the station house for "as long as he wanted to stay," an honor which he indignantly declines with the remark that "that's the kind of entertainment he's used to at home"

JUDGE GALLAGHER AND THE BAR OF VANDALIA.

In the Fayette Circuit Court, a few days ago, Hon. John Scholfield temporarily presiding, the following resolutions, adopted at a meeting of the bar of Vandalia, were presented and spread upon the records of the court:

WHEREAS, In consequence of the change made in judicial circuits, by a recent act of the Legislature, the Honorable Arthur J. Gallagher, Judge of the Seventeenth Circuit, is now probably holding his last term of court in Fayette county, and from his long residence in this county, and our intimate acquaintance with him as a practicing Attorney at this Bar, and our friendly relations with him as Judge of our Circuit Court, we deem it proper and as a matter of right, to express to him our esteem and regard as entertained by us as well as by his numerous friends and acquaintances in this county. Therefore, be it

Resolved, That as members of the bar of Fayette county, we take pleasure in presenting these resolutions as a testimonial of our high appreciation of his ability, impartiality and integrity.

Resolved, That his learning, ability and irreproachable character as Judge and as a man justify us in expressing the belief that in the administration of justice he deserves to be classed among the best and ablest of the judiciary in this state.

Resolved, That our esteem and high regard for him cause us to deeply regret the fact that our relations as members of the bar with him as Judge will so soon be severed, but we will nevertheless cherish for him an unbounded regard and the kindest recollections.

Resolved, That a copy of the proceedings and resolutions be published in the Fayette *Democrat* and Vandalia *Union* And that B. W. Henry, Esq., present a copy of the preamble and resolutions to the Circuit Court, and ask that they be spread upon the records of the court.

Our Streets.—It is very evident that if our city is to improve in size and prosperity, our streets must be so changed that they are at least passable during the winter and spring months. We have several times spoken of giving the Rolling Mill cinders a trial, but the old council did not deem such a trial necessary or expedient. We understand that the cinders necessary to such a trial can be procured at an exceedingly trifling cost, and in view of the success of the experiments already made by the T., W. & W. R R with these cinders, we would suggest that at the next meeting of the Council a fair and impartial trial of the merits of the cinders be ordered by the Council.

Jolly—Lafayette, Ind, is having a jolly time. A procession composed of Germans paraded the streets a Sunday or two ago, and as claimed, disturbed the churches with its bands. The city fathers, aroused by the clamor of the citizens, met and passed an ordinance strictly prohibiting "noisy demonstrations" on Sunday, whereupon the next Sunday following the passage of the law, Kimmel, the Mayor, arrested the city editor and compositors of the *Journal*, the milkmen, and all the railroad hands he could catch. Kimmel has also warned the sextons to cease ringing the bells on Sunday, and, at the last accounts, like Galileo's earth, he was still moving. It is generally supposed that his next step will be to warn the babies against crying on Sunday, under pain of arrest.

Real Estate Transfers.—The following transfers of real estate have been filed for record in the Macon county Recorder's office since our last report:

D S Allen to F M Hostetler, warranty deed—$340; middle pt e hf e hf ne qr, sec 23, tp 16, r 1 e. Dated April 1, 1873.

James O Davis to Frank L Davis, warranty deed—$200; 20 acres off e side sw qr, nw qr, sec 6, tp 18, r 1 e. Dated March 3, 1873.

S G Jones to J C Beatty and John M Persinger, warranty deed—$1,000; w hf, sw qr, sec 12, tp 16, r 2 e. Dated December 21, 1872.

Trustees of I C R R land to Chas Greer, deed—$400, nw qr, sw qr, sec 20, tp 17 r 1 e Dated March 31, 1871.

Harriet F Hayward to John Eckhart, warranty deed—$83,220.40; ne qr, sec 1, tp 14, r 8 e. Dated March 27, 1873.

Turpentine for Headache.—Dr Warburton Begbie advocates the use of turpentine in the severe headache to which nervous and hysterical women are subject. "There is, moreover," he says, "another class of sufferers from the headache, and this is composed of both sexes, which may be relieved by turpentine. I refer to the frontal headache, which is most apt to occur after prolonged mental effort, but may likewise be induced by unduly sustained physical exertion—what may be styled the headache of a fatigued brain. A cup of very strong tea often relieves this form of headache, but this remedy with not a few is perilous, for, bringing relief from pain, it may produce general restlessness, and worst of all, banish sleep." Turpentine is also highly recommended for external application in sore throat, pleurisy, and kindred complaints.

Eagle Trading Palace—This is the name of the new store just opened at No. 18 Merchant street, by Mr M Goldberg, whose advertisement appears in another column. His stock is a most superb one, embracing all kinds of furnishing goods for ladies' wear, corsets, bustles, hoop skirts, etc. The opening of just such a store will be properly appreciated by the ladies of Decatur, who never fail to patronize that which is worthy. Read Mr. Goldberg's advertisement, and call at his store

Remember that to night at the Opera House the great Bordwell's Franco-German War Panorama appears for the first time in our city In addition to the panorama the manager has engaged the services of Mrs. Anna Bordwell, Dr. McCarrell and Prof. Barenthem as Assistants. The combination of the German War Panorama and Bordwell's Ireland, cannot fail to attract general attention.

A MAMMOTH EDITION OF THE DAILY REPUBLICAN—15,000 COPIES.

A Rare Chance.

Advertise "where it will do Most Good."

About the first of next week we will issue a special number of the DAILY REPUBLICAN for the benefit of those business men who desire to give their advertisements a wide circulation. Messrs. H. W. Hill & Co, manufacturers of Hill's Hog Ringer, have engaged TEN THOUSAND EXTRA COPIES of this edition, and FIVE THOUSAND more have been spoken for by other manufacturing establishments in the city, which will scatter them all over the Mississippi valley. It will readily be seen that this will afford a most excellent advertising medium for those who want to spread the announcement of their business over a large territory. Most of our available space has already been engaged, but we can still furnish advertisers who desire to profit by this opportunity with small amounts of room Send in your orders at once

Too Bad—Another brass band is being organized in Peoria, and the number of vacant houses is increasing rapidly.—That city, while the small pox speckled the whole neighborhood like an eating house ceili g, and never budged when the cor. spi men. walked off with the children at the rate of nine a day, and stood their ground when they talked of building a sewer, with local assessments, now says that there is a limit to human endurance. They had fondly hoped to live, die, be buried, and sleep the calm sleep of death until Gabriel's dread trump should call them forth. But this dream is dispelled. The new cornet is a Terrible one. Gabriel's trump will only bring people to him, but bless you, the blast of these horns chases every man out of the vicinity, and they never will come back.

Going to Work.—Mr. H. B. Hammond, President of the Ind. & Ill. Central R R, arrived here last evening, bringing with him a construction train for the purpose of commencing the work of tracklaying on his new road. The road is now completed and in running order from Montezuma, Ind, to the west line of Douglas county, and it is the intention to fill up the gap between the last named point and this city without delay. The grading is about all done, and the bridge across the Sangamon is ready for the iron.

Hose Co. No. 2.—Members of this company will appear at their hose house in full uniform Saturday evening next.—The order, "Forward," will be given at precisely 6 30.

Which are now offered to the public are pronounced by all the celebrated Opticians of the world to be the **MOST PERFECT,** natural, artificial help to the human eye ever known.

They are ground under their own supervision from minute Crystal Pebbles melted together and derive their name "Diamond" on account of their hardness and brilliancy.

THE SCIENTIFIC PRINCIPLE on which they are constructed brings the core or centre of the lens directly in front of the eye, producing a clear and distinct vision, as in the natural healthy sight and preventing all unpleasant sensations, such as glimmering and wavering of sight, dizziness &c, peculiar to all others in use.

They are mounted in the finest manner in frames of the best quality of all materials used for that purpose

THEIR FINISH AND DURABILITY CANNOT BE SURPASSED.

CAUTION.—None genuine unless bearing their trade mark stamped on every frame.

Vinegar Bitters are not a vile Fancy Drink made of Poor Rum, Whisky, Proof Spirits and Refuse Liquors doctored, spiced, and sweetened to please the taste, called "Tonics," "Appetizers," "Restorers," &c., that lead the tippler on to drunkenness and ruin, but are a true Medicine, made from the native roots and herbs of California, free from all Alcoholic Stimulants. They are the Great Blood Purifier and a Life giving Principle, a Perfect Renovator and Invigorator of the System, carrying off all poisonous matter and restoring the blood to a healthy condition, enriching it, refreshing and invigorating both mind and body. They are easy of administration, prompt in their action, certain in their results, safe and reliable in all forms of disease.

No Person can take these Bitters according to directions, and remain long unwell, provided their bones are not destroyed by mineral poison or other means and the vital organs wasted beyond the point of repair.

Dyspepsia or Indigestion, Headache, Pain in the Shoulders, Coughs, Tightness of the Chest, Dizziness, Sour Eructations of the Stomach, Bad Taste in the Mouth, Bilious Attacks, Palpitation of the Heart, Inflammation of the Lungs, Pain in the region of the Kidneys, and a hundred other painful symptoms, are the offsprings of Dyspepsia. In these complaints it has no equal, and one bottle will prove a better guarantee of its merits than a lengthy advertisement.

For Female Complaints, in young or old, married or single, at the dawn of womanhood, or the turn of life, these Tonic Bitters display so decided an influence that a marked improvement is soon perceptible.

For Inflammatory and Chronic Rheumatism and Gout, Dyspepsia or Indigestion, Bilious, Remittent and Intermittent Fevers, Diseases of the Blood, Liver, Kidneys and Bladder, these Bitters have been most successful. Such Diseases are caused by Vitiated Blood, which is generally produced by derangement of the Digestive Organs.

They are a Gentle Purgative as well as a Tonic, possessing also the peculiar merit of acting as a powerful agent in relieving Congestion or Inflammation of the Liver and Visceral Organs and in Bilious Diseases.

For Skin Diseases, Eruptions, Tetter, Salt Rheum, Blotches, Spots, Pimples, Pustules, Boils, Carbuncles, Ring worms, Scald Head, Sore Eyes, Erysipelas, Itch, Scurfs, Discolorations of the Skin, Humors and Diseases of the Skin of whatever name or nature are literally dug up and carried out of the system in a short time by the use of these Bitters. One bottle in such cases will convince the most incredulous of their curative effects.

Cleanse the Vitiated Blood whenever you find its impurities bursting through the skin in Pimples, Eruptions, or Sores; cleanse it when you find it obstructed and sluggish in the veins; cleanse it when it is foul; your feelings will tell you when. Keep the blood pure and the health of the system will follow.

Grateful Thousands proclaim VINEGAR BITTERS the most wonderful Invigorant that ever sustained the sinking system.

Pin, Tape, and other Worms, lurking in the system of so many thousands, are effectually destroyed and removed. Says a distinguished physiologist, There is scarcely an individual on the face of the earth whose body is exempt from the presence of worms. It is not upon the healthy elements of the body that worms exist, but upon the diseased humors and slimy deposits that breed these living monsters of disease. No system of medicine, no vermifuges, no anthelmintics, will free the system from worms like these Bitters.

Mechanical Diseases.—Persons engaged in Paints and Minerals, such as Plumbers, Type-setters, Gold-beaters, and Miners, as they advance in life, are subject to paralysis of the Bowels. To guard against this, take a dose of WALKER'S VINEGAR BITTERS twice a week.

Bilious, Remittent, and Intermittent Fevers, which are so prevalent in the valleys of our great rivers throughout the United States, especially those of the Mississippi, Ohio, Missouri, Illinois, Tennessee, Cumberland, Arkansas, Red, Colorado, Brazos, Rio Grande, Pearl, Alabama, Mobile, Savannah, Roanoke, James, and many others, with their vast tributaries, throughout our entire country during the Summer and Autumn, and remarkably so during seasons of unusual heat and dryness, are invariably accompanied by extensive derangements of the stomach and liver, and other abdominal viscera. In their treatment a purgative, exerting a powerful influence upon these various organs, is essentially necessary. There is no cathartic for the purpose equal to DR. J. WALKER'S VINEGAR BITTERS, as they will speedily remove the dark colored viscid matter with which the bowels are loaded, at the same time stimulating the secretions of the liver, and generally restoring the healthy functions of the digestive organs.

Scrofula, or King's Evil, White Swellings, Ulcers, Erysipelas, Swelled Neck, Goitre, Scrofulous Inflammations, Indolent Inflammations, Mercurial Affections, Old Sores, Eruptions of the Skin, Sore Eyes, etc., etc. In these as in all other constitutional Diseases, WALKER'S VINEGAR BITTERS have shown their great curative powers in the most obstinate and intractable cases.

Dr. Walker's California Vinegar Bitters act on all these cases in a similar manner. By purifying the Blood they remove the cause, and by resolving away the effects of the inflammation (the tubercular deposits) the affected parts receive health, and a permanent cure is effected.

The properties of DR. WALKER'S VINEGAR BITTERS are Aperient, Diaphoretic, Carminative, Nutritious, Laxative, Diuretic, Sedative, Counter-Irritant, Sudorific, Alterative, and Anti-Bilious.

The Aperient and mild Laxative properties of DR. WALKER'S VINEGAR BITTERS are the best safe-guard in cases of eruptions and malignant fevers. Their balsamic healing and soothing properties protect the humors of the fauces. Their Sedative properties allay pain in the nervous system, stomach, and bowels, from inflammation, wind, colic, cramps, etc.

Their Counter-Irritant influence extends throughout the system. Their Anti-Bilious properties stimulate the liver, in the secretion of bile, and its discharges through the biliary ducts, and are superior to all remedial agents, for the cure of Bilious Fever, Fever and Ague, etc.

Fortify the body against disease by purifying all its fluids with VINEGAR BITTERS. No epidemic can take hold of a system thus fore-armed.

Directions.—Take of the Bitters on going to bed at night from a half to one and one-half wine-glassful. Eat good nourishing food, such as beef-steak, mutton chop, venison, roast beef, and vegetables, and take out-door exercise. They are composed of purely vegetable ingredients, and contain no spirit.

TWO FARMS FOR RENT,

OF 80 ACRES EACH, 4 miles north of Oakley, Macon county, Ill. A good bearing orchard and other improvements, a moderately good house on each 80. None need apply unless they have two teams. Possession given any day. For terms &c. apply to the undersigned. JOHN T. DRESBACK, Agent

The Chemistry of Divine Providence has never produced a mineral water which combines in such perfection the qualities of anti-bilious tonic and cathartic medicine, as that of the Seltzer Spa, and Tarrant's Effervescent Seltzer Aperient is the artificial equivalent of that great natural remedy

This Cut Illustrates the manner of Using

DR. PIERCE'S

Fountain Nasal Injector, OR DOUCHE.

This instrument is especially designed for the perfect application of

DR. SAGE'S CATARRH REMEDY.

It is the only form of instrument yet invented with which fluid medicine can be carried *high up* and *perfectly applied* to all parts of the affected nasal passages, and the chambers or cavities communicating therewith, in which sores and ulcers frequently exist, and from which the catarrhal discharge generally proceeds. The want of success in treating catarrh heretofore has arisen largely from the impossibility of applying remedies to these cavities and chambers by any of the ordinary methods. This obstacle in the way of effecting cures is entirely overcome by the invention of the Douche. In using this instrument, the Fluid is carried by its own weight (no snuffing, forcing or pumping being required,) up one nostril in a full gently flowing stream to the highest portion of the nasal passages, passes into and thoroughly cleanses all the tubes and chambers connected therewith, and flows out of the opposite nostril. Its use is pleasant and so simple that a child can understand it. Full and explicit directions accompany each instrument. When used with this instrument, Dr. Sage's Catarrh Remedy cures recent attacks of "Cold in the Head" by a few applications.

Symptoms of Catarrh. Frequent headache, discharge falling into throat, sometimes profuse, watery, thick mucus, purulent, offensive, &c. In others a dryness, dry, watery, weak or inflamed eyes, stopping up or obstruction of nasal passages, ringing in ears, deafness, hawking and coughing to clear throat, ulcerations, scabs from ulcers, voice altered, nasal twang, offensive breath, impaired or total deprivation of sense of smell and taste, dizziness, mental depression, loss of appetite, indigestion, enlarged tonsils, tickling cough, &c. Only a few of these symptoms are likely to be present in any case at one time.

Dr. Sage's Catarrh Remedy, when used with Dr. Pierce's Nasal Douche, and accompanied with the constitutional treatment which is recommended in the pamphlet that wraps each bottle of the Remedy, is a perfect specific for this loathsome disease, and the proprietor offers, in good faith, **$500** reward for a case he cannot cure. The Remedy is mild and pleasant to use, containing no strong or caustic drugs or poisons. The Catarrh Remedy is sold at 50 cents, Douche at 60 cents, by all Druggists, or either will be mailed by proprietor on receipt of 60 cents.
